Priority Needs: Summary

Through a series of community convenings, a needs assessment and asset mapping process, the following needs were prioritized for McCormick County. See our full needs assessment here:

<https://www.mccormickcountyfirststeps.org/board/#reports>

1. Strengthen existing partnerships

Participants discussed that the McCormick County First Steps has a limited budget and resources and will need to collaborate with others for transportation, recreation, and community resources.

2. Advocate for and promote the importance of Early Childhood Education

Leadership discussed that most of the population is of retirement age and the bulk of the resources go to the elderly. McCormick County First Steps will need to stress the importance of kindergarten readiness, early childhood education and careers with the entire community for others “to connect the dots” and see how everything is connected.

Priority Needs: Summary (con't)

3. Explore and create ways to fundraise for day care and scholarship opportunities

The qualitative data showed an overwhelming need for a day care. Leadership would like an analysis done to truly understand how many children need a day care in the community and then to creatively find a way to raise the funds for this to be a viable option. So many small children are being raised by their aging grandparents and screens.

4. Explore alternative ways to engage the WHOLE family

Participants shared how frustrating previous attempts have been in engaging the entire family. Minimal to no attendance at events is going to require McCormick County First Steps to think creatively in how to engage the entire family. McCormick County Frist Steps recognizes that several barriers (limited accountability, child abuse, poverty) exist and need to find ways to promote hope and encouragement for families with small children.
